Basic Repair And Troubleshooting

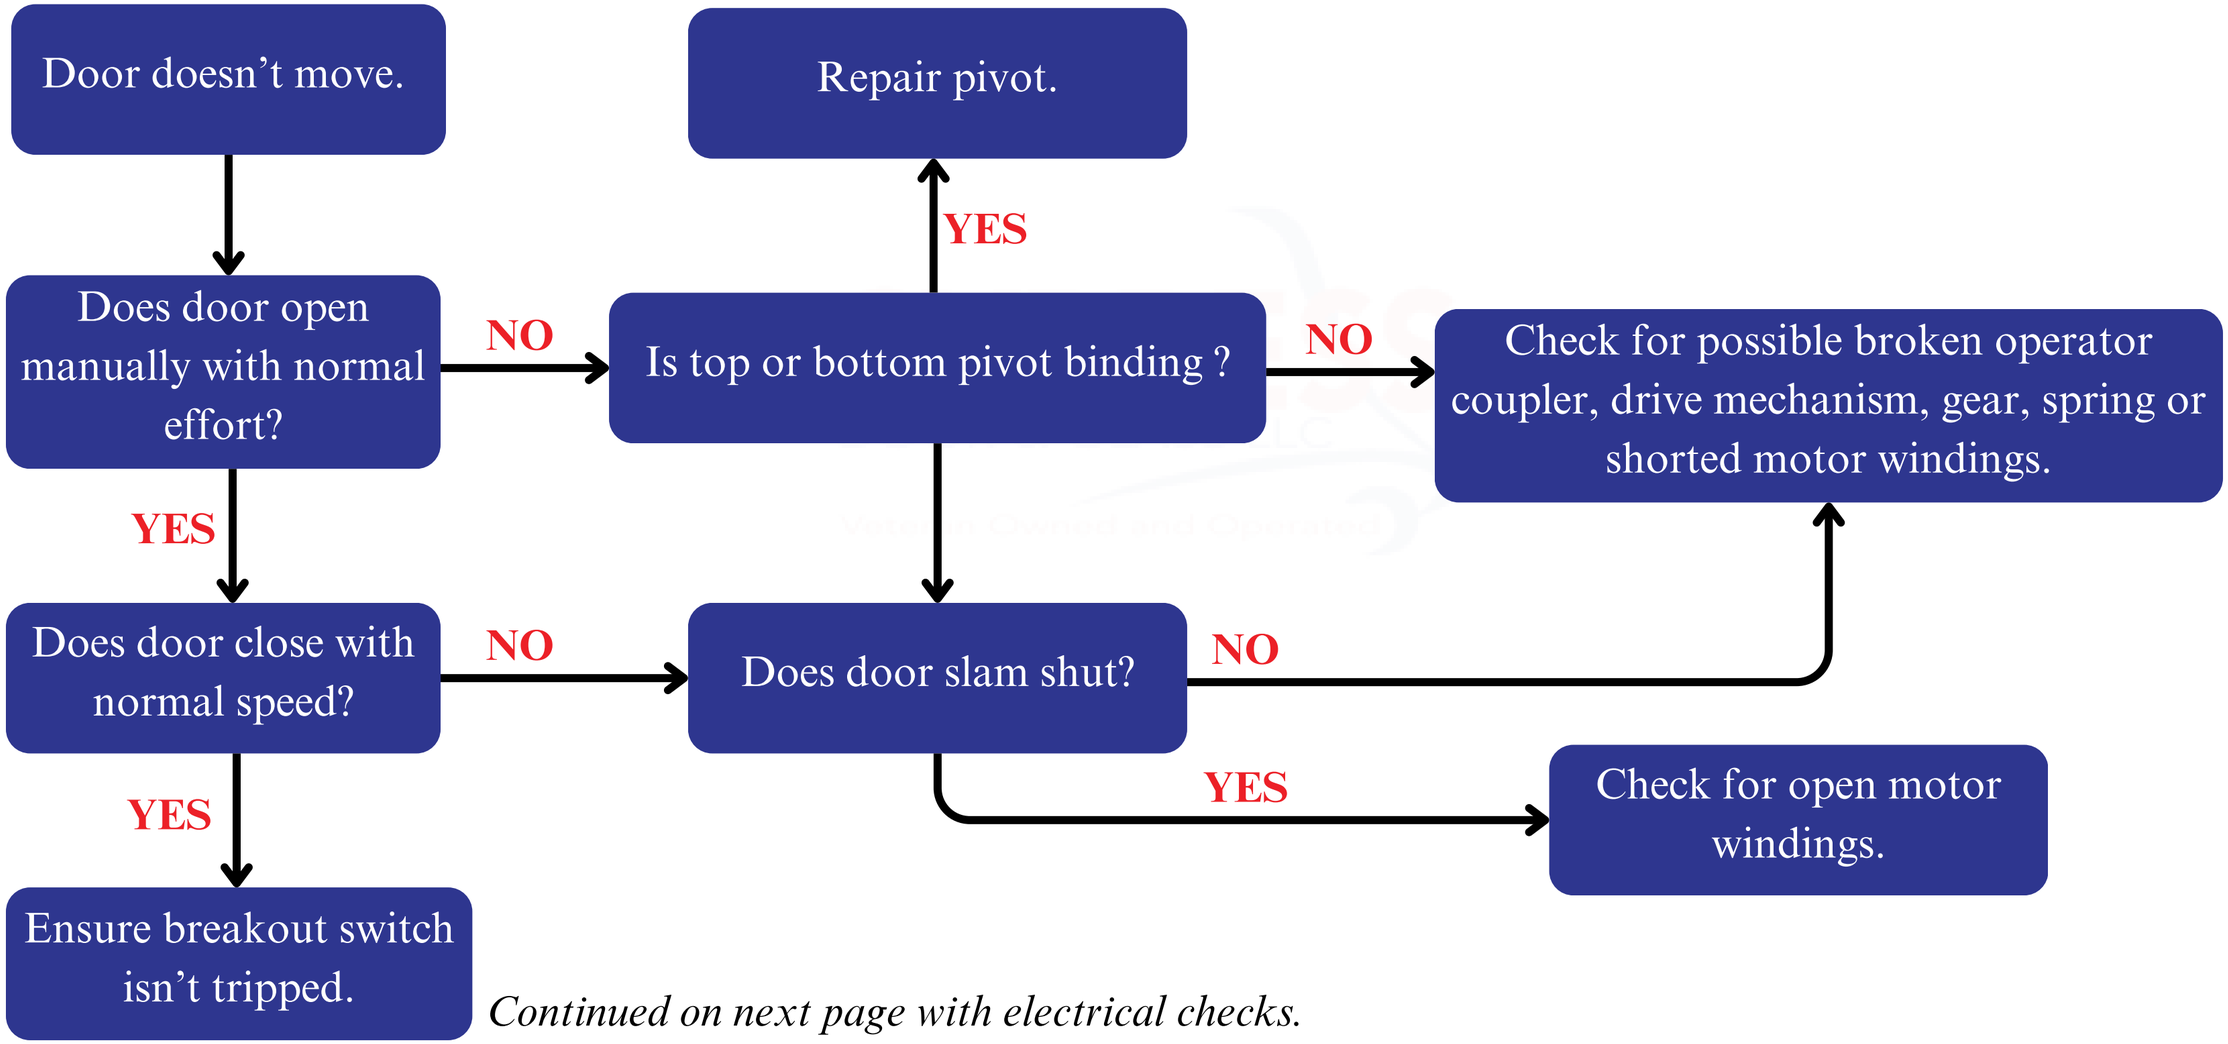
Automatic Swing Doors

Basic Troubleshooting and Service Call Checks

- Inspection (Use your senses > Look, Listen, Smell)
- Check Power Sources
- Isolate the System

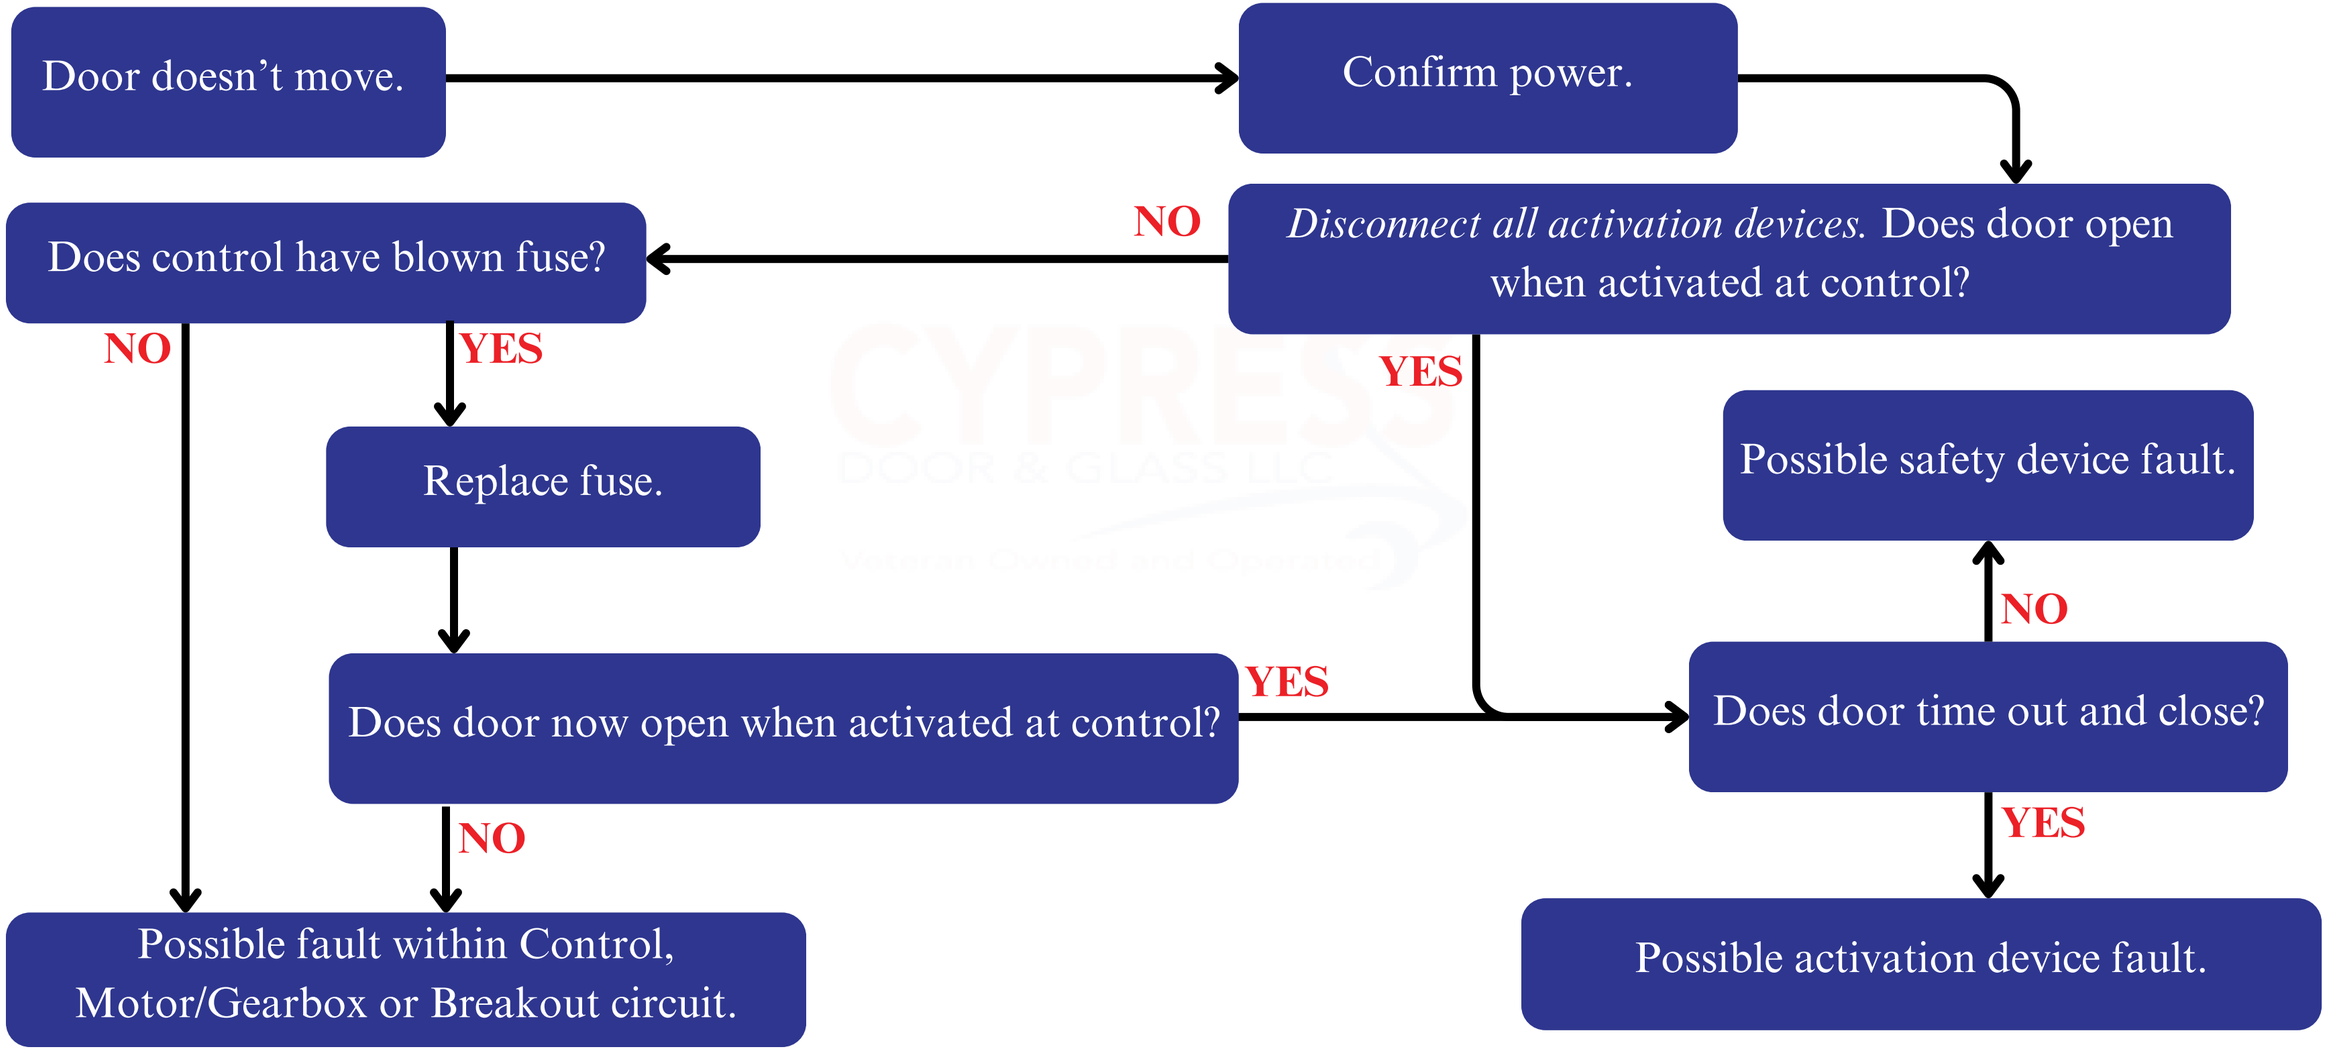
- Did they pay for their last service call?
- Ensure the On / Off / H.O. switch is turned on.
- If both of the above are true, proceed to the mechanical checks.

Automatic Swing Door Basic Troubleshooting (Mechanical Checks)



Continued on next page with electrical checks.

Automatic Swing Door Basic Troubleshooting (Electrical Checks)



NOTE: *When disconnecting either an activation or safety device you may need to insert a jumper if the circuit is N.C. This will allow the door to move.*
